

## THE NEXT GENERATION IN EYE TRACKING

- 120 Hz Sampling Rate
- High Accuracy - 0.4 degrees
- Binocular Eye Tracking - both Eyes
- Fast & Easy Calibration
- Separate data streams from left and right eyes available
- Complete and Customizable Computer System included

## EYEGAZE ANALYSIS SYSTEM™

The Eyegaze Analysis System™ is a binocular Eye Tracking System – it measures the gaze position of both eyes with two separate cameras. It is particularly popular in research because of its comprehensive, high-speed data output which is acquired with a high sampling rate.
